SKILLS

- Python
- Java
- Basics of C
- Data Structures & Algorithm

SOFT SKILLS

- Active Listening
- Self Motivated
- Problem-Solving Approach

LANGUAGES

- ENGLISH
- HINDI

INTEREST

- Fitness & Gym
- Learning New Technologies

OBJECTIVE

"Aspiring Software Engineer with a solid understanding of Java, Python, Data Structures, Algorithms, and basic Operating System concepts. I enjoy solving real problems through clean and simple code, and I actively practice coding to strengthen my logical thinking. I like experimenting with small projects, exploring new tools."

EDUCATION

- **Bachelor Of Technology (Information Technology)** 2023 - PRESENT
RR Institute Of Modern Technology, Lucknow (AKTU)
Percentage :- 81.52 %
- **Intermediate** 2023
Jamuna Ram Memorial School Manpur Chitbaragaron Ballia
Percentage :- 70.8%
- **High School** 2021
St Michaels School Karihara Beruwara Ballia
Percentage :- 64.4%

PROJECT

Cafeteria Management System

2025

- Developed an interactive console-based food ordering system using Python.
- The application allows users to select categories, enter budget preferences, and calculates the final bill with an automated discount mechanism.
- Implemented modular functions, input validation, exception handling, and formatted output for a smooth user experience.

CERTIFICATION

- Workshop Of AI Tools
- Generative AI Studio
